1. Record Maintenance – Alumni

1.1 Automated Unit Test Cases

82 automated test cases have been executed; details of tests are available at the following location:

<https://github.com/ntkwilliam/CareerTracker/tree/master/src/frontend/src/app/unit-tests>

1.2 Functional Test Cases

Test Case ID	1.2.1	Test Case Name	Search for alumni – last name – with results
System	User Interface	Subsystem	Records-Alumni
Designed by	S. Shrout	Design Date	12/2019 – 2/2020
Executed by	S. Shrout	Execution Date	2/10/2020
Description	Test to ensure a search for alumni by last name is successful/returns expected results (records matching criteria present)		
Test Result	Pass	Corrective Action(s)	

Pre-conditions

Submitted alumni (in this case, test data) are present in the database; application is available and running

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Select Records in main navigation	Records submenu is displayed	Pass	
2	Select Alumni from records submenu	Alumni component/list is displayed	Pass	
3	Select the Search icon	Alumni search form is displayed	Pass	
4	Enter a last name value (test value Edwards)	The last name field is populated with value	Pass	
5	Select the Search button	Search results are displayed	Pass	
6	Check post-condition 1		Pass	

Post-conditions

1. Search results for all records meeting submitted criteria are displayed as expected

The screenshot shows a Windows application window with a dark red header bar containing standard window controls (minimize, maximize, close). Below the header is a white form area with several input fields and their corresponding labels. The labels are in bold black font, and the input fields are simple rectangular boxes. Error messages are displayed in red text below the fields.

Diploma Description:

Graduation Term Code:

Test Case ID	1.2.37.1	Test Case Name	Add new alumni – employer record – missing/invalid data – test 1
System	User Interface	Subsystem	Records-Alumni
Designed by	S. Shrout	Design Date	12/2019 – 2/2020
Executed by	S. Shrout	Execution Date	2/19/2020
Description	Test to ensure validation errors are displayed and record is not committed when not all data is valid		
Test Result	Pass	Corrective Action(s)	

Pre-conditions

Application is available and running; alumni is existing

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Select Records in main navigation	Records submenu is displayed	Pass	
2	Select Alumni from records submenu	Alumni component/list is displayed	Pass	
3	Select the Edit function for an existing alumni	Alumni detail form is displayed	Pass	
4	Select the Employers tab	The employer information is displayed	Pass	
5	Select the New Record option	The employer detail window is displayed	Pass	
6	Enter test data: Employer: null Role Title: null Active employment : unchecked	Fields reflect test data input	Pass	
7.	Select the Save option	Validation errors are displayed	Pass	
8.	Check post-condition 1		Pass	

Post-conditions

1. Validation errors displayed for fields as expected

A screenshot of a software application window with a dark red header bar containing a file icon and a close button. Below the header are three input fields: "Employer" (a dropdown menu with a blue border), "Role Title" (an empty text input field), and "Active Employment" (a checked checkbox). The window has rounded corners and a black base.

A screenshot of the same software application window, but the "Employer" field now has a red border and the placeholder text "A value is required." displayed in red. The other fields ("Role Title" and "Active Employment") remain unchanged. The window has rounded corners and a black base.

Test Case ID	1.2.38.1	Test Case Name	Add new alumni – employer record – valid data – test 1
System	User Interface	Subsystem	Records-Alumni
Designed by	S. Shrout	Design Date	12/2019 – 2/2020
Executed by	S. Shrout	Execution Date	2/19/2020
Description	Test to ensure validation errors are not displayed and record is committed when all data is valid		
Test Result	Pass	Corrective Action(s)	

Pre-conditions

Application is available and running; alumni is existing

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Select Records in main navigation	Records submenu is displayed	Pass	
2	Select Alumni from records submenu	Alumni component/list is displayed	Pass	
3	Select the Edit function for an existing alumni	Alumni detail form is displayed	Pass	
4	Select the Employer tab	The employer information is displayed	Pass	
5	Select the New Record option	The employer detail window is displayed	Pass	
6	Enter test data: Employer: Humana, Louisville, KY Role Title: null Active Employment: unchecked	Fields reflect test data input	Pass	
7.	Select the Save option	No validation errors occur, record is saved, save message displayed	Pass	
8.	Check post condition 1		Pass	
9	Check post condition 2		Pass	
10	Check post condition 3		Pass	

Post-conditions

1. Validation errors not displayed for fields

2. Save message is displayed

3. Record is committed

A screenshot of a web-based application interface. At the top, there is a red header bar with a close button (X) and a save/refresh icon. Below the header, the form contains three fields:

- Employer:** A dropdown menu set to "Humana, Louisville, KY".
- Role Title:** An empty input field.
- Active Employment:** A checked checkbox.

An error message "A value is required." is displayed in red text above the empty role title field. The bottom of the screen shows a navigation bar with tabs for "Locations", "Employee Details", and "Comments".

A screenshot of a web-based application interface. It displays the same form fields as the previous screenshot, but the "Role Title" field is now empty. The "Active Employment" checkbox is checked. The red success message from the previous screenshot is no longer present.

Test Case ID	1.2.38.2	Test Case Name	Add new alumni – employer record – valid data – test 2
System	User Interface	Subsystem	Records-Alumni
Designed by	S. Shrout	Design Date	12/2019 – 2/2020
Executed by	S. Shrout	Execution Date	2/19/2020
Description	Test to ensure validation errors are not displayed and record is committed when all data is valid		
Test Result	Pass	Corrective Action(s)	

Pre-conditions

Application is available and running; alumni is existing

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Select Records in main navigation	Records submenu is displayed	Pass	
2	Select Alumni from records submenu	Alumni component/list is displayed	Pass	
3	Select the Edit function for an existing alumni	Alumni detail form is displayed	Pass	
4	Select the Employer tab	The employer information is displayed	Pass	
5	Select the New Record option	The employer detail window is displayed	Pass	
6	Enter test data: Employer: Humana, Louisville, KY Role Title: Test Active Employment: unchecked	Fields reflect test data input	Pass	
7.	Select the Save option	No validation errors occur, record is saved, save message displayed	Pass	
8.	Check post condition 1		Pass	
9	Check post condition 2		Pass	
10	Check post condition 3		Pass	

Post-conditions

1. Validation errors not displayed for fields

2. Save message is displayed

3. Record is committed

The screenshot shows a software application window with a red header bar containing icons for saving and closing. Below the header, there are three form fields:

- Employer:** A dropdown menu set to "Humana, Louisville, KY".
- Role Title:** An input field containing the text "Test".
- Active Employment:** A checkbox which is checked.

The screenshot shows the same software application window after a successful save operation. The red header bar now displays the message "The record has been saved successfully." above the form fields. The form fields themselves remain the same as in the previous screenshot.

Test Case ID	1.2.38.3	Test Case Name	Add new alumni – employer record – valid data
System	User Interface	Subsystem	Records-Alumni
Designed by	S. Shrout	Design Date	12/2019 – 2/2020
Executed by	S. Shrout	Execution Date	2/19/2020
Description	Test to ensure validation errors are not displayed and record is committed when all data is valid		
Test Result	Pass	Corrective Action(s)	

Pre-conditions

Application is available and running; alumni is existing

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Select Records in main navigation	Records submenu is displayed	Pass	
2	Select Alumni from records submenu	Alumni component/list is displayed	Pass	
3	Select the Edit function for an existing alumni	Alumni detail form is displayed	Pass	
4	Select the Employer tab	The employer information is displayed	Pass	
5	Select the New Record option	The employer detail window is displayed	Pass	
6	Enter test data: Employer: Humana, Louisville, KY Role Title: null Active Employment: checked	Fields reflect test data input	Pass	
7.	Select the Save option	No validation errors occur, record is saved, save message displayed	Pass	
8.	Check post condition 1		Pass	
9	Check post condition 2		Pass	
10	Check post condition 3		Pass	

Post-conditions

1. Validation errors not displayed for fields

2. Save message is displayed

3. Record is committed

A screenshot of a software application window. At the top, there is a red header bar with two small icons: a white square with a black outline and a white 'X' with a black outline. Below the header, the main area contains three form fields. The first field is labeled "Employer:" followed by a dropdown menu containing the text "Humana, Louisville, KY". The second field is labeled "Role Title" and has an empty input box. The third field is labeled "Active Employment:" followed by a checkbox which is checked. The background of the main area is white.

A screenshot of the same software application window as the previous one, but now showing a success message. The red header bar at the top still has the two icons. The main area now displays a message "The record has been saved successfully." centered above the original form fields. The fields themselves remain the same: "Employer:" dropdown set to "Humana, Louisville, KY", "Role Title" input box empty, and "Active Employment:" checkbox checked. The background is white.

Test Case ID	1.2.38.4	Test Case Name	Add new alumni – employer record – valid data
System	User Interface	Subsystem	Records-Alumni
Designed by	S. Shrout	Design Date	12/2019 – 2/2020
Executed by	S. Shrout	Execution Date	2/19/2020
Description	Test to ensure validation errors are not displayed and record is committed when all data is valid

Pre-conditions

Application is available and running; alumni is existing

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Select Records in main navigation	Records submenu is displayed	Pass	
2	Select Alumni from records submenu	Alumni component/list is displayed	Pass	
3	Select the Edit function for an existing alumni	Alumni detail form is displayed	Pass	
4	Select the Employer tab	The employer information is displayed	Pass	
5	Select the New Record option	The employer detail window is displayed	Pass	
6	Enter test data: Employer: Humana, Louisville, KY Role Title: Test Active Employment: checked	Fields reflect test data input	Pass	
7.	Select the Save option	No validation errors occur, record is saved, save message displayed	Pass	
8.	Check post condition 1		Pass	
9	Check post condition 2		Pass	
10	Check post condition 3		Pass	

Post-conditions

1. Validation errors not displayed for fields

2. Save message is displayed

3. Record is committed

A screenshot of a software application window. At the top, there are standard window controls: a red minimize button, a white maximize button, and a black close button. Below the title bar, there are three form fields. The first field is labeled "Employer:" and contains the value "Humana, Louisville, KY" with a dropdown arrow indicating it's a dropdown menu. The second field is labeled "Role Title" and contains the value "Test". The third field is labeled "Active Employment:" and contains a checked checkbox, indicated by a blue checkmark inside a square.

A screenshot of the same software application window after a save operation. The window now displays a red header bar with the message "The record has been saved successfully." in white text. The rest of the interface remains the same, showing the "Employer", "Role Title", and "Active Employment" fields with their respective values and checked status.

Test Case ID	1.2.39	Test Case Name	Add new alumni – graduate school record – missing/invalid data – test 1
System	User Interface	Subsystem	Records-Alumni
Designed by	S. Shrout	Design Date	12/2019 – 2/2020
Executed by	S. Shrout	Execution Date	2/19/2020
Description	Test to ensure validation errors are displayed and record is not committed when not all data is valid		
Test Result	Pass	Corrective Action(s)	

Pre-conditions

Application is available and running; alumni is existing

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Select Records in main navigation	Records submenu is displayed	Pass	
2	Select Alumni from records submenu	Alumni component/list is displayed	Pass	
3	Select the Edit function for an existing alumni	Alumni detail form is displayed	Pass	
4	Select the Graduate School tab	The graduate school information is displayed	Pass	
5	Select the New Record option	The graduate school detail window is displayed	Pass	
6	Enter test data: Graduate school: null	Fields reflect test data input	Pass	
7.	Select the Save option	Validation errors are displayed	Pass	
8.	Check post-condition 1		Pass	

Post-conditions

1. Validation errors displayed for fields as expected

The image displays two screenshots of a mobile application interface, likely from an Android device, showing a dropdown menu for selecting a graduate school.

Screenshot 1: The top screenshot shows the initial state of the dropdown. The label "Graduate School:" is followed by a blue-outlined dropdown menu button with a downward arrow icon. The background is white, and the overall theme is dark.

Screenshot 2: The bottom screenshot shows the dropdown menu open. The label "Graduate School:" is followed by a red-outlined dropdown menu button with a downward arrow icon. Below the button, the error message "A value is required." is displayed in red text. The background of the dropdown menu is white, and it has rounded corners.

Test Case ID	1.2.40	Test Case Name	Add new alumni – graduate school record – valid data

1. Validation error(s) displayed for field(s) as expected.
2. Validation errors removed; save message displayed.
3. Record committed as expected; alumni detail tab control reflects updated value(s)

A screenshot of a software application window. At the top is a dark red header bar with a small white icon containing a circular arrow and a white 'X' icon on the right side. Below the header, there are two form fields. The first field is labeled "Diploma Description:" and contains the text "Test". The second field is labeled "Graduation Term Code:" and is an empty input box outlined in blue.

A screenshot of the same software application window after a save operation. The red header bar now has a white "Save" icon with a checkmark and a white 'X' icon. The "Diploma Description:" field still contains "Test". The "Graduation Term Code:" field is now highlighted with a red background, indicating it is the active or selected field.

A screenshot of the software application window showing validation results. The red header bar now has a white "Save" icon with a checkmark and a white 'X' icon. The "Diploma Description:" field still contains "Test". The "Graduation Term Code:" field is highlighted with a red background. Below the field, the error message "A value is required." is displayed in red text.

The record has been saved successfully.

6	Check post-condition 1		Pass	
7	Select the Delete function.	The delete confirmation window is displayed.	Pass	
8	Select Yes on the delete confirmation window	The edit form is closed, deleted flag is updated on record but record not physically deleted, control returns to main alumni component	Pass	
9	Check post-condition 2		Pass	
10	Check post-condition 3		Pass	

Post Conditions

1. Record is not deleted; control returns to alumni edit component.
2. Edit form is closed, control returns to main alumni component.
3. Deleted flag was updated on record; record not physically deleted; no longer appears in listing.

The screenshot shows the Indiana University Southeast Career Tracker application interface. At the top, there is a red header bar with the IU Southeast logo and the text "Career Tracker". Below the header, a navigation bar includes "Records", "Import Data", and "Reports/Exports". The main content area displays an "Alumnus ID" table with columns: Alumnus ID, Last Name, First Name, Location, Graduation Term Code, and Current Employer(s). A single row is shown for Alumnus ID 74, with Last Name English, First Name Lleyton, Location Jeffersonville, IN, and Graduation Term Code listed. Below the table is a red toolbar with icons for delete, edit, and close. The main form area contains fields for Last Name (English), First Name (Lleyton), Mailing Address (Street Address: 760 Sherman St., City: Jeffersonville), Telephone Number/Email (Telephone Number and E-mail Address fields), State (IN), and Zip Code (47130). At the bottom of the form, it shows "Added By: IMPORT" and "Added Date/Time: 2/17/2020 12:00 AM", and "Last Updated By: IMPORT" and "Last Updated Date/Time: 2/17/2020 12:00 AM". A table at the bottom lists "Degrees", "Employments", "Graduate Schools", and "Comments". The "Employments" section is expanded, showing columns: Diploma Description, Graduation Term Code, Added By Date/Time, Last Updated By Date/Time, and Actions. The "Actions" column contains a plus sign (+) icon.

8	Select Yes on the delete confirmation window	Alumni detail form is displayed; record is no longer displayed	Pass	
9	Check post-condition 2		Pass	
10	Check post-condition 3		Pass	

Post Conditions

1. Record is not deleted; control returns to alumni edit component.
2. Alumni edit form is displayed again
3. Deleted flag was updated on record; record not physically deleted; no longer appears in listing.

The screenshot shows the 'Alumni Edit' page. At the top, there are buttons for Delete, Edit, and Close. Below that, the 'Last Name' is Castro and the 'First Name' is Ebrahi. Under 'Mailing Address', the 'Street Address' is 8535 Wrangler Drive, 'City' is Louisville, 'State' is KY, and 'Zip Code' is 40202. Under 'Telephone Number/Email', the 'Telephone Number' field is empty and the 'E-mail Address' is ecastro@gmail.com. At the bottom, it shows 'Added By: IMPORT' and 'Added Date/Time: 2/17/2020 12:00 AM'. On the right, it shows 'Last Updated By: CURRENTUSER' and 'Last Updated Date/Time: 2/17/2020 10:46 AM'. Below this, there is a table for 'Degrees' with one entry: 'Diploma Description' (B.S. Mathematics), 'Graduation Term Code' (9803), 'Added By Date/Time' (CURRENTUSER, 2/17/2020 10:26 AM), and 'Last Updated By Date/Time' (CURRENTUSER, 2/17/2020 10:26 AM). There are 'Delete' and 'Edit' icons next to the last row.

Diploma Description	Graduation Term Code	Added By Date/Time	Last Updated By Date/Time	Actions
B.S. Mathematics	9803	CURRENTUSER 2/17/2020 10:26 AM	CURRENTUSER 2/17/2020 10:26 AM	

This screenshot is identical to the one above, showing the 'Alumni Edit' page with the same contact information and degree history. However, a modal dialog box is overlaid in the center, asking 'Are you sure you wish to delete this record?' with 'Yes' and 'No' buttons. The rest of the page content is dimmed.

5	Select No on the delete confirmation window	Alumni detail form is displayed; record is not updated	Pass	
6	Check post-condition 1		Pass	
7	Select the Delete function on one of the employment records present	The delete confirmation window is displayed.	Pass	
8	Select Yes on the delete confirmation window	Alumni detail form is displayed; record is no longer displayed	Pass	
9	Check post-condition 2		Pass	
10	Check post-condition 3		Pass	

Post Conditions

1. Record is not deleted; control returns to alumni edit component.
2. Alumni edit form is displayed again
3. Deleted flag was updated on record; record not physically deleted; no longer appears in listing.

This screenshot shows the 'Alumni Edit' component. At the top, there are fields for Last Name ('Childs') and First Name ('Eduardo'). Below these are sections for Mailing Address (Street Address: '61 East Briarwood Drive', City: 'New Albany', State: 'IN', Zip Code: '47150') and Telephone Number/Email (Telephone Number and E-mail Address fields). Under the 'Employments' tab, a table lists one entry: UPS, Louisville, KY, Role Title: 'Employment', Active Employment: 'Y', Added By Date/Time: '2/17/2020 10:46 AM', and Last Updated By Date/Time: '2/17/2020 10:46 AM'. The 'Actions' column contains a trash can icon and an edit icon.

This screenshot shows the same 'Alumni Edit' component as above, but with a red-bordered dialog box in the center asking 'Are you sure you wish to delete this record?'. Below the dialog, there are 'Yes' and 'No' buttons. The rest of the page content is dimmed.

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Select Records in main navigation	Records submenu is displayed	Pass	
2	Select Employer from records submenu	Employer component/list is displayed	Pass	
3	Select the New Record icon	Employer detail form is displayed	Pass	
4	Enter test data: Employer Name: YMCA Address Line 1: 101 Main St. City: New Albany State: IN Zip Code: 47150	Fields populated with data as expected	Pass	
5	Select the Save button	Validation errors not displayed for fields	Pass	
6	Check post-condition 1		Pass	
7.	Check post-condition 2		Pass	
8.	Check post-condition 3		Pass	

Post-conditions

2. Validation errors not displayed for fields

2. Save message is displayed

3. Record is committed

The screenshot shows a web-based form for entering address information. At the top right are three icons: a trash can, a copy symbol, and a close button. The form fields include:

- Employer:** YMCA (in a red-bordered input field)
- Mailing Address** (grouped under this heading):
 - Street Address:** 101 Main St.
 - City:** New Albany
 - State:** IN
 - Zip Code:** 47150 (in a red-bordered input field)
- Contact/Telephone Number/Email** (grouped under this heading):
 - Contact Name:** [empty input field]
 - Telephone Number:** [empty input field]
 - E-mail Address:** [empty input field]
- Added By:** CURRENTUSER
- Added Date/Time:** 2/29/2020 10:39 PM
- Last Updated By:** CURRENTUSER
- Last Updated Date/Time:** 2/29/2020 10:39 PM

This screenshot shows the same web form after the record has been committed. The fields are identical to the previous screenshot, but the validation error for the Zip Code field is no longer present. The red border around the "47150" input field is gone.

A screenshot of a software application window. At the top is a dark red header bar with three small white icons: a square, a circle, and a cross. Below the header is a light gray content area. In the upper left corner of this area, the word "Comment:" is written in bold black font. To its right is a large, empty rectangular input field with a thin blue border. The word "Test" is typed into the top-left corner of this field.

A screenshot of a software application window. At the top is a dark red header bar with three small white icons: a square, a circle, and a cross. Below the header is a light gray content area. In the upper left corner of this area, the word "Comment:" is written in bold black font. To its right is a large, empty rectangular input field with a thin blue border. The word "Test" is typed into the top-left corner of this field. At the bottom of the screen is a dark gray footer bar. On the left side of the footer, there is some very small, illegible text. In the center of the footer, the words "SAVED TIMES" and "SUBMITTED" are repeated twice, once above the other.

2. Validation errors removed; save message displayed.
3. Record committed as expected.

This screenshot shows a web-based form for adding a new record. The form includes fields for Employer (a required field), Mailing Address (Street Address, City, State, Zip Code), Contact/Telephone Number/Email (Contact Name, Telephone Number, E-mail Address), and a Comments section. The employer field is empty. The contact information fields are also empty. The comments section contains one entry: "Test" added by CURRENTUSER on 2/24/2020 11:02 PM, last updated by CURRENTUSER on the same date and time. The status bar at the bottom indicates the record was added successfully.

2. No validation errors; changes committed

The screenshot shows a software interface for managing employer contact information. At the top, there is a red header bar with three small icons: a trash can, a copy/paste, and a close button. Below the header, the form fields are organized into two main sections: 'Mailing Address' and 'Contact/Telephone Number/Email'. The 'Mailing Address' section includes fields for Street Address, City, State, and Zip Code. The 'Contact/Telephone Number/Email' section includes fields for Contact Name, Telephone Number, and E-mail Address. Below these sections, status information is displayed: 'Added By: CURRENTUSER', 'Last Updated By: CURRENTUSER', 'Added Date/Time: 2/29/2020 10:41 PM', and 'Last Updated Date/Time: 2/29/2020 10:41 PM'. A 'Comments' tab is visible at the bottom left, and a '+' icon is located above the comments table. The comments table has columns for Comment, Added By Date/Time, Last Updated By Date/Time, and Actions.

This screenshot is identical to the one above, showing the same software interface for managing employer contact information. The only difference is a message at the top of the main content area: 'The record has been saved successfully.' This message is displayed in a white box with a thin black border, positioned above the 'Comments' tab and below the main form fields.

Test Case ID	2.2.31	Test Case Name	Edit existing employer general data – invalid/valid – city
System	User Interface	Subsystem	Records-Employer
Designed by	S. Shrout	Design Date	12/2019 – 2/2020
Executed by	S. Shrout	Execution Date	2/29/2020
Description	Test to ensure validation errors are shown as expected and record committed (if no errors) as expected		
Test Result	Pass	Corrective Action(s)	

Pre-conditions

Application is available and running; employer is existing; employer has address line 1, state, zip code populated

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Select Records in main navigation	Records submenu is displayed	Pass	
2	Select Employer from records submenu	Employer component/list is displayed	Pass	
3	Select the Edit function for an existing employer	Employer detail form is displayed	Pass	
4	Update fields: City: null	Field(s) reflect(s) updated value(s)	Pass	
5.	Select the Save option	Validation error(s) displayed as expected.	Pass	
6.	Check post-condition 1		Pass	
7.	Update fields: City: Lexington	Field(s) reflect(s) updated value(s)	Pass	
8.	Select the Save option	Save message displayed; no validation errors; record committed as expected.	Pass	
9.	Check post-condition 2		Pass	
10.	Check post-condition 3		Pass	

Post-conditions

1. Validation error(s) displayed for field(s) as expected.
2. Validation errors removed; save message displayed.
3. Record committed as expected.

This screenshot shows a web-based form for adding a new record. The fields are as follows:

- Employer:** Humana
- Mailing Address:**
 - Street Address:** [Empty input field]
 - City:** [Empty input field]
 - State:** KY
 - Zip Code:** 40202
- Contact/Telephone Number/Email:**
 - Contact Name:** [Empty input field]
 - Telephone Number:** [Empty input field]
 - E-mail Address:** [Empty input field]
- Added By:** [Empty input field]
- Last Updated By:** [Empty input field]
- Comments:** A table with columns: Comment, Added By Date/Time, Last Updated By Date/Time, Actions.

This screenshot shows the same web-based form, but with validation errors present. The fields are identical to the first screenshot, except for the City field which is highlighted in red with the error message "A value is required." displayed below it.

The record has been saved successfully.

1	Select Records in main navigation	Records submenu is displayed	Pass	
2	Select Employer from records submenu	Employer component/list is displayed	Pass	
3	Select the Edit function for an existing employer	Employer detail form is displayed	Pass	
4	Update fields: State: null	Field(s) reflect(s) updated value(s)	Pass	
5.	Select the Save option	Validation error(s) displayed as expected.	Pass	
6.	Check post-condition 1		Pass	
7.	Update fields: State: OK	Field(s) reflect(s) updated value(s)	Pass	
8.	Select the Save option	Save message displayed; no validation errors; record committed as expected.	Pass	
9.	Check post-condition 2		Pass	
10.	Check post-condition 3		Pass	

Post-conditions

1. Validation error(s) displayed for field(s) as expected.
2. Validation errors removed; save message displayed.
3. Record committed as expected.

The screenshot shows a software application window with a dark red header bar containing standard window controls (minimize, maximize, close). Below the header is a form with several input fields and sections:

- Employer:** A text input field containing "Test".
- Mailing Address:** A section with two rows of input fields:
 - Street Address:** Two input fields, the top one containing "108 8th St."
 - Contact Name:** An empty input field.
- City:** An input field containing "Louisville".
- Telephone Number:** An empty input field.
- State:** A dropdown menu currently showing a blue square.
- E-mail Address:** An empty input field.
- Zip Code:** An input field containing "42020".

Below the address section are two status lines:

- Added By:** CURRENTUSER
- Added Date/Time:** 2/24/2020 11:02 PM
- Last Updated By:** CURRENTUSER
- Last Updated Date/Time:** 2/24/2020 11:02 PM

At the bottom of the window is a section titled "Comments" with a table:

Comment	Added By Date/Time	Last Updated By Date/Time	Actions

Test Case ID	3.2.26.2	Test Case Name	Add new graduate school – valid data – test 2
System	User Interface	Subsystem	Records-Graduate school
Designed by	S. Shrout	Design Date	12/2019 – 2/2020
Executed by	S. Shrout	Execution Date	2/12/2020
Description	Test to ensure validation errors are not displayed, save message is displayed, and record is committed when all data is valid		
Test Result	Pass	Corrective Action(s)	

Pre-conditions

Application is available and running

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Select Records in main navigation	Records submenu is displayed	Pass	
2	Select Graduate school from records submenu	Graduate school component/list is displayed	Pass	
3	Select the New Record icon	Graduate school detail form is displayed	Pass	
4	Enter test data: Graduate school Name: Spalding University Address Line 1: 5101 3rd St. City: Louisville State: KY Zip Code: 40211	Fields populated with data as expected	Pass	
5	Select the Save button	Validation errors not displayed for fields	Pass	
6	Check post-condition 1		Pass	
7.	Check post-condition 2		Pass	
8.	Check post-condition 3		Pass	

Post-conditions

1. Validation errors not displayed for fields
2. Save message is displayed
3. Record is committed

A screenshot of a web-based form for adding a new graduate school record. The form has a red header bar with three icons: a trash can, a floppy disk, and a close button. Below the header, the 'Graduate School' field contains 'Spalding University'. The 'Mailing Address' section includes fields for Street Address ('5101 3rd St.'), City ('Louisville'), State ('KY'), and Zip Code ('40211'). The 'Contact/Telephone Number/Email' section includes fields for Contact Name, Telephone Number, and E-mail Address, all of which are currently empty. At the bottom of the form, there are fields for 'Added By' (set to 'CURRENTUSER') and 'Added Date/Time' (set to '3/1/2020 2:32 AM').

The record has been saved successfully.

A screenshot of the same web-based form after the record has been saved successfully. The 'Graduate School' field still contains 'Spalding University'. The 'Mailing Address' section shows the same information: Street Address ('5101 3rd St.'), City ('Louisville'), State ('KY'), and Zip Code ('40211'). The 'Contact/Telephone Number/Email' section remains empty. At the bottom of the form, the 'Added By' field is now populated with 'CURRENTUSER' and the 'Added Date/Time' field shows the timestamp '3/1/2020 2:32 AM'. A red banner at the bottom of the page displays the message 'The record has been saved successfully.'

Test

Test Case ID	3.2.29	Test Case Name	Edit existing graduate school general data – invalid/valid – graduate school name
System	User Interface	Subsystem	Records-Graduate school
Designed by	S. Shrout	Design Date	12/2019 – 2/2020
Executed by	S. Shrout	Execution Date	2/29/2020
Description	Test to ensure validation errors are shown as expected and record committed (if no errors) as expected		
Test Result	Pass	Corrective Action(s)	

Pre-conditions

Application is available and running; graduate school is existing

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Select Records in main navigation	Records submenu is displayed	Pass	
2	Select Graduate school from records submenu	Graduate school component/list is displayed	Pass	
3	Select the Edit function for an existing graduate school	Graduate school detail form is displayed	Pass	
4	Update fields: Graduate school name: null	Field(s) reflect(s) updated value(s)	Pass	
5.	Select the Save option	Validation error(s) displayed as expected.	Pass	
6.	Check post-condition 1		Pass	
7.	Update fields: Graduate school: WKU	Field(s) reflect(s) updated value(s)	Pass	
8.	Select the Save option	Save message displayed; no validation errors; record committed as expected.	Pass	
9.	Check post-condition 2		Pass	
10.	Check post-condition 3		Pass	

Post-conditions

1. Validation error(s) displayed for field(s) as expected.
2. Validation errors removed; save message displayed.
3. Record committed as expected.

This screenshot shows a web-based form for adding or updating a record. The top section contains fields for 'Graduate School' (empty), 'Mailing Address' (empty), 'Contact/Telephone Number/Email' (empty), 'Street Address' (empty), 'Contact Name' (empty), 'City' (empty), 'Telephone Number' (empty), 'State' (empty), 'Zip Code' (empty), 'E-mail Address' (set to 'test@wku.edu'), and a timestamp indicating the record was added by 'CURRENTUSER' at '3/1/2020 2:36 AM'. Below this is a 'Comments' section with a table header row containing 'Comment', 'Added By Date/Time', 'Last Updated By Date/Time', and 'Actions'. The main body of the comments table is currently empty.

This screenshot shows the same web form as above, but with validation errors. The 'Graduate School' field is highlighted in red with the error message 'A value is required.' The other fields ('Mailing Address', 'Street Address', 'City', 'State', 'Zip Code') are empty and have no visible validation errors. The timestamp and 'Comments' section remain the same as in the first screenshot.

Pre-conditions

Application is available and running; graduate school is existing; graduate school has existing comment record

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Select Records in main navigation	Records submenu is displayed	Pass	
2	Select Graduate school from records submenu	Graduate school component/list is displayed	Pass	
3	Select the Edit function for an existing graduate school	Graduate school detail form is displayed	Pass	
4	Select the Edit function for an existing comment record.	The comment record detail form is displayed	Pass	
5	Update fields: Comment: null	Field(s) reflect(s) updated value(s)	Pass	
6	Select the Save option	Validation error(s) displayed as expected.	Pass	
7	Check post-condition 1		Pass	
8	Update fields: Comment: This is a test	Field(s) reflect(s) updated value(s)	Pass	
9	Select the Save option	Save message displayed; no validation errors; record committed as expected.	Pass	
10	Check post-condition 2		Pass	
11	Check post-condition 3		Pass	

Post-conditions

1. Validation error(s) displayed for field(s) as expected.
2. Validation errors removed; save message displayed.
3. Record committed as expected; graduate school detail tab control reflects updated value(s)

 A redacted rectangular area representing a comment input field.

Comment:

 A redacted rectangular area representing a comment input field.

A value is required.

 A dark red horizontal bar with white text and icons.

The record has been saved successfully.

Comment:

This is a test

Test Case ID	3.2.37	Test Case Name	Delete - Graduate school
System	User Interface	Subsystem	Records-Graduate school
Designed by	S. Shrout	Design Date	12/2019 – 2/2020
Executed by	S. Shrout	Execution Date	2/29/2020
Description	Test to ensure that logical deletion is applied as expected when confirming delete request		
Test Result	Pass	Corrective Action(s)	

Pre-conditions

Application is available and running; graduate school is existing

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Select Records in main navigation	Records submenu is displayed	Pass	
2	Select Graduate school from records submenu	Graduate school component/list is displayed	Pass	
3	Select the Edit function for an existing graduate school	Graduate school detail form is displayed	Pass	
4	Select the Delete function.	The delete confirmation window is displayed.	Pass	
5	Select No on the delete confirmation window	Graduate school detail form is displayed; record is not updated	Pass	
6	Check post-condition 1		Pass	
7	Select the Delete function.	The delete confirmation window is displayed.	Pass	
8	Select Yes on the delete confirmation window	The edit form is closed, deleted flag is updated on record but record not physically deleted, control returns to main graduate school component	Pass	
9	Check post-condition 2		Pass	
10	Check post-condition 3		Pass	

Post Conditions

1. Record is not deleted; control returns to graduate school edit component.
2. Edit form is closed, control returns to main graduate school component.
3. Deleted flag was updated on record; record not physically deleted; no longer appears in listing.

The screenshot shows a Microsoft Dynamics 365 form for editing a Graduate School record. The top section has a red header bar with three icons: a trash can, a copy/paste, and a close button. Below the header, the 'Graduate School' field contains 'Indiana State University'. The form is divided into two main sections: 'Mailing Address' and 'Contact/Telephone Number/Email'. Under 'Mailing Address', fields include 'Street Address' (two lines), 'City' (one line), 'State' (two lines), and 'Zip Code' (one line). Under 'Contact/Telephone Number/Email', fields include 'Contact Name' (Misty Owens), 'Telephone Number' ((555) 555-5555), and 'E-mail Address' (empty). At the bottom, audit information is displayed: 'Added By: CURRENTUSER', 'Added Date/Time: 3/1/2020 2:34 AM', 'Last Updated By: CURRENTUSER', and 'Last Updated Date/Time: 3/1/2020 2:34 AM'. A dark grey footer bar at the bottom left contains a 'Comments' tab and a '+' icon. The 'Comments' tab is highlighted in red.

A screenshot of a database management tool showing a query in the SQL editor tab. The query is:

```
1 •  SELECT deleted
2   FROM graduate_schools
3  WHERE school_name = 'Indiana State University'
```

The results grid shows one row with the value '1' under the 'deleted' column.

Test Case ID	3.2.38	Test Case Name	Delete – Graduate school – comment record
System	User Interface	Subsystem	Records-Graduate school
Designed by	S. Shrout	Design Date	12/2019 – 2/2020
Executed by	S. Shrout	Execution Date	2/29/2020
Description	Test to ensure that logical deletion is applied as expected when confirming delete request		
Test Result	Pass	Corrective Action(s)	

Pre-conditions

Application is available and running; graduate school is existing; comment record is existing on graduate school

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Select Records in main navigation	Records submenu is displayed	Pass	
2	Select Graduate school from records submenu	Graduate school component/list is displayed	Pass	
3	Select the Edit function for an existing graduate school	Graduate school detail form is displayed	Pass	
4	Select the Delete function on one of the comment records present	The delete confirmation window is displayed.	Pass	
5	Select No on the delete confirmation window	Graduate school detail form is displayed; record is not updated	Pass	
6	Check post-condition 1		Pass	
7	Select the Delete function on one of the comment records present	The delete confirmation window is displayed.	Pass	
8	Select Yes on the delete confirmation window	Graduate school detail form is displayed; record is no longer displayed	Pass	
9	Check post-condition 2		Pass	
10	Check post-condition 3		Pass	

Post Conditions

1. Record is not deleted; control returns to graduate school edit component.
2. Graduate school edit form is displayed again
3. Deleted flag was updated on record; record not physically deleted; no longer appears in listing.

4.1 Functional Test Cases

Test Case ID	4.1.1	Test Case Name	Login – username does not exist
System	Authentication	Subsystem	Users
Designed by	Anthony Freitas	Design Date	12/2019 – 2/2020
Executed by	Anthony Freitas	Execution Date	2/12/2020
Description	Test to ensure entering a username that does not exist in the database returns an error		
Test Result	Pass	Corrective Action(s)	

Pre-conditions

Submitted username does not exist in database; application is available and running

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Navigate to the Login page	Login page displayed	Pass	
2	Enter test data: Username: doesnotexist Password: doesnotexist	Username and password fields display entered data	Pass	
3	Select the Login button	Returns an error	Pass	
4	Check post-condition 1		Pass	

Post-conditions

1. “User does not exist” error message is returned

Test Case ID	4.1.2	Test Case Name	Authentication – incorrect password
System	Authentication	Subsystem	Users
Designed by	Anthony Freitas	Design Date	12/2019 – 2/2020
Executed by	Anthony Freitas	Execution Date	2/12/2020
Description	Test to ensure entering an existing username with an incorrect password returns an error		
Test Result	Pass	Corrective Action(s)	

Pre-conditions

Submitted username exists in database; application is available and running

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Navigate to the Login page	Login page displayed	Pass	
2	Enter test data: Username: username Password: incorrect	Username and password fields display entered data	Pass	
3	Select the Login button	Returns an error	Pass	
4	Check post-condition 1		Pass	

Post-conditions

1. “Incorrect password” error message is returned

Test Case ID	4.1.3	Test Case Name	Authentication – correct login
System	Authentication	Subsystem	Users
Designed by	Anthony Freitas	Design Date	12/2019 – 2/2020
Executed by	Anthony Freitas	Execution Date	2/12/2020
Description	Test to ensure entering an existing username with a correct password navigates to the main application page		
Test Result	Pass	Corrective Action(s)	

Pre-conditions

Submitted username exists in database; application is available and running

Steps

Step	Action	Expected Behavior	Pass/Fail	Comments
1	Navigate to the Login page	Login page displayed	Pass	
2	Enter test data: Username: username Password: password	Username and password fields display entered data	Pass	
3	Select the Login button	Redirect to the main application page	Pass	
4	Check post-condition 1		Pass	

Post-conditions

1. Main application page is displayed
